FEEDING GUIDE FROM 6 MONTHS+

Level scoops of powder	Cooled boiled water per feed		Babies from 6 months onward need about 500-600ml of breast milk or formula per day.
	ml	fl oz	
6	180	6	
7	210	7	

4.3g scoop enclosed. This information is given as a guide only. Your baby may need more or less than the amounts shown. Note the volume of prepared formula is slightly greater than that of the water added.

IMPORTANT FEEDING INSTRUCTIONS

For hygiene reasons, do not store made up feeds. Make up each feed as required and always discard unfinished feeds within 2 hours maximum. The water should be freshly boiled and allowed to cool to a minimum of 70°C, and no longer than 30 minutes. Do not heat feeds in a microwave as hot spots may occur and cause scalding. Do not add extra scoops of powder, or anything else to your baby's feed. **STORAGE:** Store unopened can in a cool, dry place (do not refrigerate). After opening, keep airtight and continue to store in a cool, dry place. Use contents within 4 weeks.

INGREDIENTS

Pasteurised **goat milk** solids (43%), lactose (from **milk**), vegetable oils (high oleic sunflower, rapeseed, sunflower), minerals, vitamins, acidity regulator (citric acid), choline chloride, antioxidant (sunflower lecithin), L-tryptophan, L-isoleucine, taurine, antioxidant (tocopherol-rich extract).

VITAMINS:

Ascorbic acid, dl-a-tocopheryl acetate, nicotinamide, retinyl acetate, cholecalciferol, calcium d-pantothenate, phytonadione, cyanocobalamin, thiamin hydrochloride, riboflavin, pyridoxine hydrochloride, folic acid, biotin.

MINERALS:

Calcium hydroxide, dicalcium phosphate, sodium citrate, potassium chloride, ferrous sulphate, calcium citrate, zinc sulphate, copper sulphate, manganese sulphate, potassium iodide, sodium selenite.

ALLERGY ADVICE:

For allergens, see ingredients in **bold**.

IMPORTANT

Nannycare Follow on milk is only suitable for babies from 6 months, to complement breastfeeding or the start of weaning, as part of a varied and balanced diet.

It is not intended as a breast milk substitute and is not suitable for babies under 6 months. It is recommended that Nannycare Follow on milk is used only on the advice of a doctor, midwife, health visitor, public health nurse, dietitian, pharmacist, or other professional responsible for maternal and child care, based on your baby's individual needs.
